

RESIDENCE HALL GUEST POLICY

Through the following residence hall guest policy, Pace University aims to provide on-campus residents with the opportunity and privilege of having guests while also maintaining the security and comfort for all members of the residential community. This balance relies on a culture of mutual respect and a process of policy enforcement.

It is expected that residents having guests know and abide by the university guest policy, plan ahead, be courteous to one another, communicate with their roommates, and make compromises when necessary. Pace University reserves the right to deny or remove a guest from campus at any time. Failure to follow the posted policies and procedures may result in a temporary or indefinite suspension of guest privileges for a host or guest.

A guest registration kiosk is located on the ground floor lobby of each residence hall. In general, guests are permitted daily, except as posted for semester breaks and emergency closures.

1. To host a guest, a guest must visit the Splan kiosk in the lobby of the residence hall, select *N R*, and complete the registration forms with all required fields, including indicating the dates and times of arrival and departure from the residence hall, take a photo **with their mask off**, and sign the policy acknowledgement form. If completed successfully, the guest registration will automatically transfer to Security on their virtual platform.
2. For access to the residence hall, both the guest and the resident host must be present at the Security desk together and each must present their valid Pace ID or government issued ID to the Security to verify their identify.

Residents must escort their guest at all times. If the host must leave the building, the guest must also leave the building.

The presence of a guest must not compromise the personal or academic well-being of a roommate or other members of the Pace University community.

Residents may host up to two guests at any given time. Each guest counts for one overnight for each night of their stay. Residents may host two long term guests up to three consecutive nights per visit for a maximum of ten overnights within a one-month period.

A guest may only stay up to five consecutive nights on-campus, regardless of the building or resident host. After the fifth overnight, the guest must wait at least one day to be signed-in again. Each guest is permitted to stay overnight only 10 nights per month, total for all hosts and residence hall visits combined.

Guests that arrive during the hours of operation and leave before the community desk closes are considered short-term guests. Guests that arrive during the hours of operation and remain signed-in past the close of the community desk (generally 1:00 am) are considered long-term guests.

Guests that are not signed-out before the close of the community desk automatically become registered as a long-term guest, even if the guest does not remain in the residence hall and counts towards the host's monthly guest allowance.

Guests who are not currently signed-in, that arrive when the guest registration process is closed will not be permitted to enter the residence hall. In the event of a dire situation, at the discretion of a resident assistant or Housing Operations/Residential Life professional staff member on-call, a guest may be allowed to sign-in after hours. In all situations in which this special accommodation is made, the host and the guest may be charged with a temporary restriction of guest privileges.

Violation of any article of this guest policy, including exceeding the limits for overnight guests and failure to register a guest, will be handled through the student conduct process and may result in an indefinite suspension of guest privileges.

Exceptions to these policies are not being accepted or considered at this time. Any changes to the guest policy will be announced prior to implementation.
